**NIKITIN VICTOR YAKOVLEVICH** was born on September 8, 1928 in Chinaz of the Tashkent Region of the Uzbek Soviet Socialist Republic. In 1947 he entered the Kazan veterinary institute of N.E. Bauman. In 1952 he graduated from the veterinary faculty with honors and by the solution of the academic board of the institute for excellent study and extracurricular activities he was recommended for the postgraduate study for the chair of obstetrics headed by the Honored worker of science of RSFSR and TASSR, the corresponding member of the All-Union Academy of Agricultural Sciences of V.I. Lenin, the leading obstetrician of the country, professor A.P. Studentsov. In 1955 ahead of schedule he defended Ph.D. thesis in Veterinary Science. Since then he worked as the associate professor at the Dagestan Agricultural Institute at the surgery and obstetrics chair. Since 1961 he worked as the

associate professor of the Stavropol Agricultural Institute. In 1967 he organized the chair of obstetrics at the institute and headed it. In 1968 he was elected the dean of the faculty of veterinary medicine. In 1971 he defended doctoral thesis in veterinary sciences, and in 1972 the academic status of the Professor was awarded to him.

In 1983 he was appointed the vice rector for the scientific work of the Stavropol Agricultural Institute and in 1984 on the order of the Minister of Agriculture of the USSR he was appointed the rector of the institute. After the state certification in 1993 under his management the institute was transformed into the Stavropol State Agricultural Academy. He headed the academy for nearly 15 years. Then he became its president.

Being the disciple of Professor A.P. Studentsov and the successor of his ideas, V.Y. Nikitin created the Stavropol School of Veterinary Obstetricians. 20 candidate and 8 doctoral dissertations were successfully defended under the scientific guidance of Professor V.Y. Nikitin. Now he is the scientific consultant of five full time graduate students and two doctoral candidates. Professor V. Y. Nikitin and his disciples solve successfully the problems connected with the reproduction of the agricultural animals, pathology of the reproductive organs and mammary gland, thus developing new, more effective methods of treatment and prevention. Results of these researches are reflected in textbooks, educational and methodical grants, monographs and numerous articles. V.Y. Nikitin published more than 250 of scientific works.

V.Y. Nikitin was twice awarded the State grant of the president of Russia, honorary titles "The honored worker of science of RSFSR" (1981), the Republics of Dagestan (1998) and Karachay-Cherkessia (1999). The title of the honourable worker of the Higher education of Russia was given to him in 1997. He was elected the full member (academician) of three international academies of Sciences: of the higher school (1994), informatization (1995) and agrarian education (2000). He was elected the honourable professor by the Academic council of the Kazan state academy of veterinary medicine. In 1998 on the resolution of the Stavropol State Duma he was given the rank "The honourable citizen of Stavropol". He is awarded "the Honour sign order", "The Labour Red Banner order", "the Fatherland merits order" of the 4th degree, many medals and certificates of honor. In 2008 he was awarded the medal "For Valorous Work" of the 3rd degree.

***We sincerely admire huge talent, vigorous energy, ability to achieve goals and bright successes of the scientist who has glorified the Russian science, and wish Victor Yakovlevich good health, vigorous spirits, family wellbeing and new professional victories for the prosperity of the agrarian science and education!***
